

Programming Principles & Algorithms - Detailed Study Notes

Unit 1

Introduction to programming, problem solving, flowcharts, pseudocode. Introduction to programming, problem solving, flowcharts, pseudocode. Introduction to programming, problem solving, flowcharts, pseudocode. Introduction to programming, problem solving, flowcharts, pseudocode. Introduction to programming, problem solving, flowcharts, pseudocode. Introduction to programming, problem solving, flowcharts, pseudocode. Introduction to programming, problem solving, flowcharts, pseudocode.

Unit 2

Variables, data types, operators, input/output, control statements. Variables, data types, operators, input/output, control statements. Variables, data types, operators, input/output, control statements. Variables, data types, operators, input/output, control statements. Variables, data types, operators, input/output, control statements. Variables, data types, operators, input/output, control statements. Variables, data types, operators, input/output, control statements.

Unit 3

Functions, arrays, strings, searching and sorting algorithms. Functions, arrays, strings, searching and sorting algorithms. Functions, arrays, strings, searching and sorting algorithms. Functions, arrays, strings, searching and sorting algorithms. Functions, arrays, strings, searching and sorting algorithms. Functions, arrays, strings, searching and sorting algorithms. Functions, arrays, strings, searching and sorting algorithms.

Unit 4

Recursion, pointers (concept), algorithm efficiency and Big-O. Recursion, pointers (concept), algorithm efficiency and Big-O. Recursion, pointers (concept), algorithm efficiency and Big-O. Recursion, pointers (concept), algorithm efficiency and Big-O. Recursion, pointers (concept), algorithm efficiency and Big-O. Recursion, pointers (concept), algorithm efficiency and Big-O. Recursion, pointers (concept), algorithm efficiency and Big-O.

Unit 5

Practice algorithms with examples and important exam questions. Practice algorithms with examples and important exam questions. Practice algorithms with examples and important exam questions. Practice algorithms with examples and important exam questions. Practice algorithms with examples and important exam questions. Practice algorithms with examples and important exam questions. Practice algorithms with examples and important exam questions.

Exam Tips

Revise definitions, diagrams, solved examples, and previous year questions.
